# My Experience

---

She meets us in our Soul

She plays with us in the  
Earth Garden, her  
playground.

This Class consists of several parts that I am going to attempt to teach simultaneously...

---

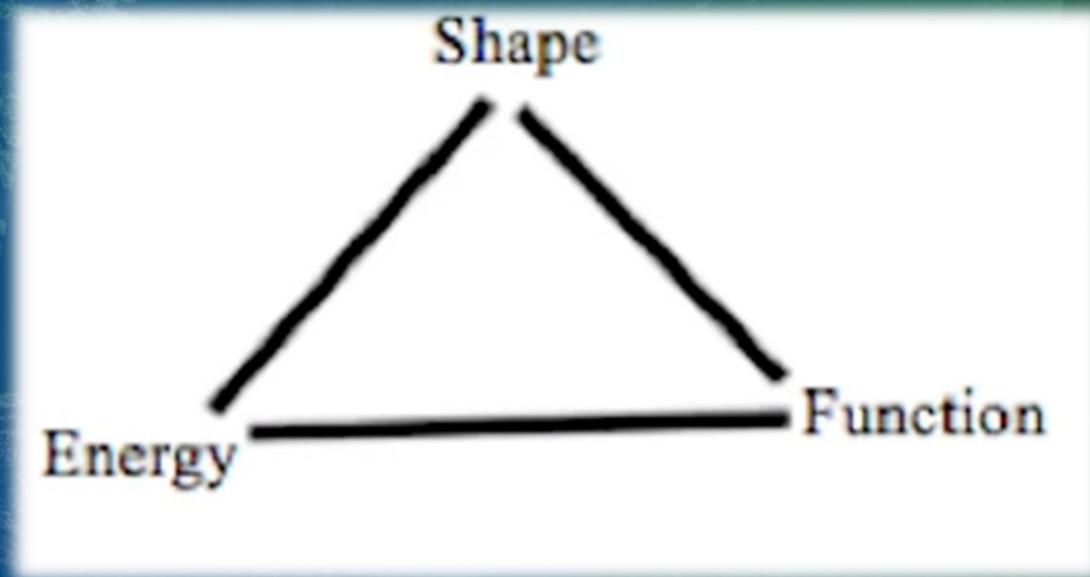

- The Spiritual Aspect
- The Scientific Aspect – Sacred Geometry
- The Practical Tools Aspect

We can think of *Sacred Geometry* as the building blocks or the instructions that inform AND form everything we see.

With this in mind, we need to think of it from the perspective of:

**ENERGY – SHAPE – FUNCTION**

THE ENERGY dictates the SHAPE which equals the FUNCTION.

Energy in its primordial form can take on any shape, can create anything...So, how do we program that fundamental energy to create a specific function? How does nature do it? Remember SACRED GEOMETRY is Nature's design language.

It programs the energy by making the it move in a particular energy movement pattern. When we see the finished energy movement pattern, that is what we call today: SHAPE.

Shape programs energy for all our specific life functions.

For anything to exist in the physical world something from the primordial planes had to take on a specific structure... it had to take on a specific *SHAPE*...(remember that shape forms through MOVEMENT!)

# For Example...

This...

to this...

to this...

But HOW?

---

HOW DOES THAT HAPPEN?

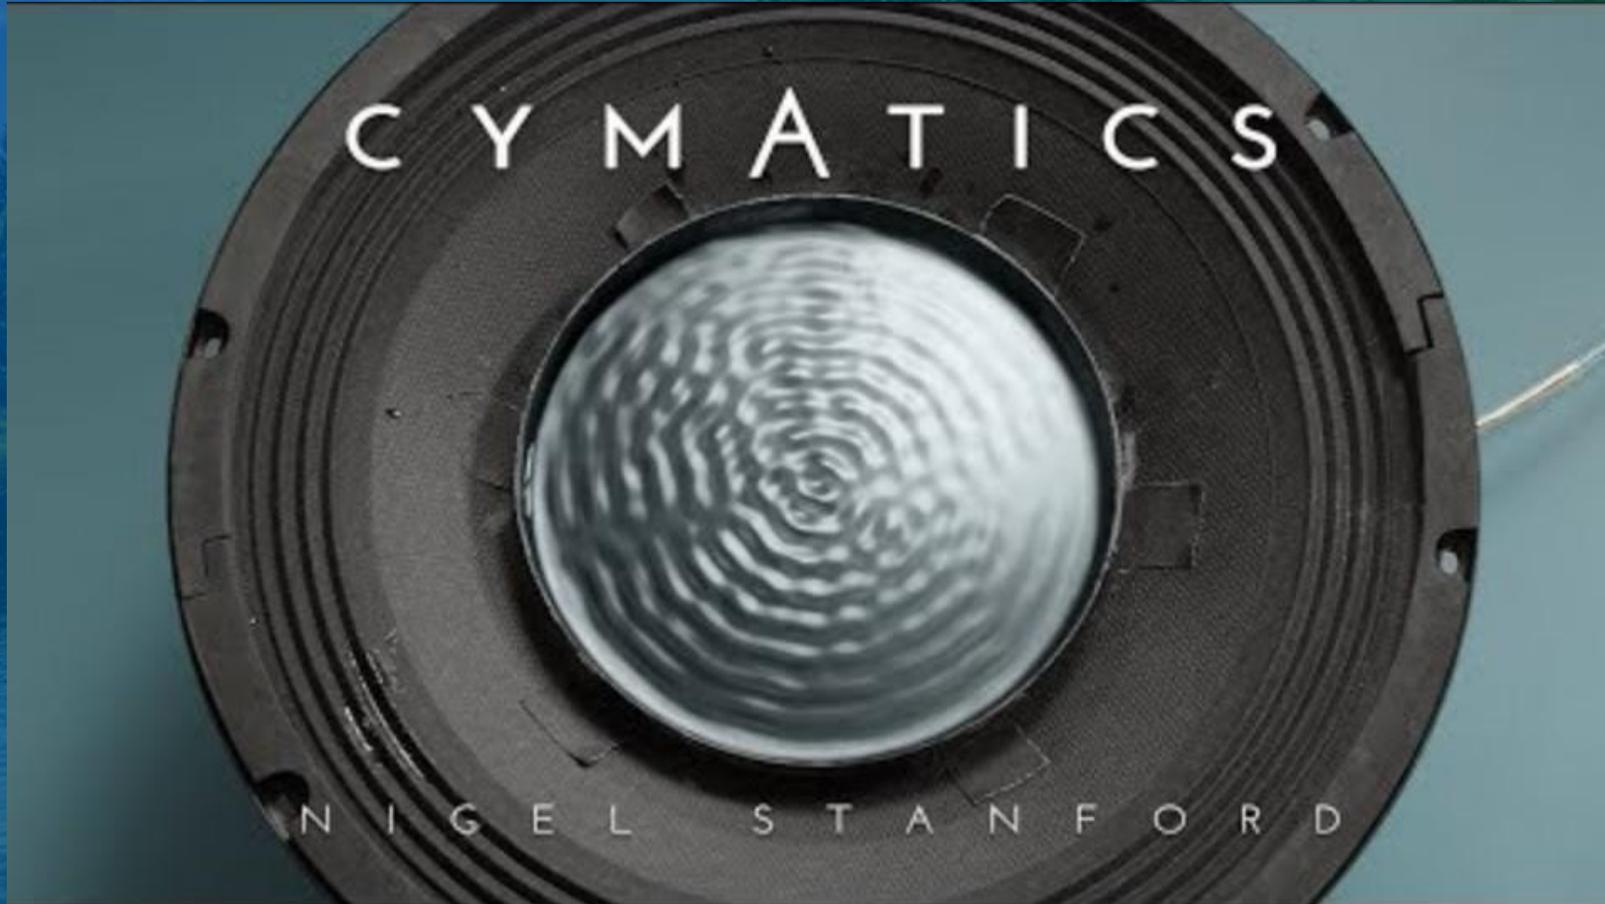

**FREQUENCY!**

## Frequencies for Sound Healing

Body Function	NOTE	FREQUENCY
Personality	C+	264
Circulation, Sex	C#	586
Adrenals, Thyroid	B	492
Kidney	E	330
Liver	Ab	198
Bladder	F#	352
Small Intestine	C#	281.6
Lungs	A	220
Colon	F#	176
Gall Bladder	E	330
Pancreas	C#	117.3
Stomach	A	110
Spleen	B	492

So just to give you an example...

---

## *REMEMBER...*

---

Nature is an inexhaustible storehouse of riches. The supply will never run out. Original substance is alive with creative energy and is constantly producing more forms.

*The formless stuff is intelligent; it is material which thinks.  
It is alive and is always impelled toward more life.*

Wallace Wattles

WHAT DETERMINES HOW A THING TURNS INTO A THING IS  
*FREQUENCY!*

## So let's look at what we know...

- Everything we see originates from primordial substance through the door of Sacred Geometry.
- Everything that we see has literal **SOURCE LIGHT (PRANA)** in it.
- This SOURCE LIGHT has *specific frequency attributes* that are measurable.
- It is always found in the **CENTER** of every object.
- It can be grown & cultivated with attention.

The reason Sophia is making Her presence known now...

---

### ***BECAUSE SHE CAN!***

The frequency on Earth is raising as more and more light codes are hitting the planet. This allows more of the literal primordial life force wisdom that is SOPHIA to get more pronounced. This is not random. This was planned. For those of us who choose to, we can raise our frequency as the Earth raises hers. As this happens our bodies will begin to change. In order to match that frequency we must keep our bodies physically healthy and viable enough to keep up.

This is not going way. This is going to continue. One of my goals is to give us all simple tools to do that.

# Frequency is the KEY...

---

- This is why SOUND VIBRATION of any kind, works.
- This is why just playing chants or high vibrational music in the background works.
- Think about all the different sounds: Including words, thoughts and mutterings of your own throughout the day, that you hear.
- It programs your cells and your psyche!
- Ponder and journal any ways you might want to adjust your frequency..

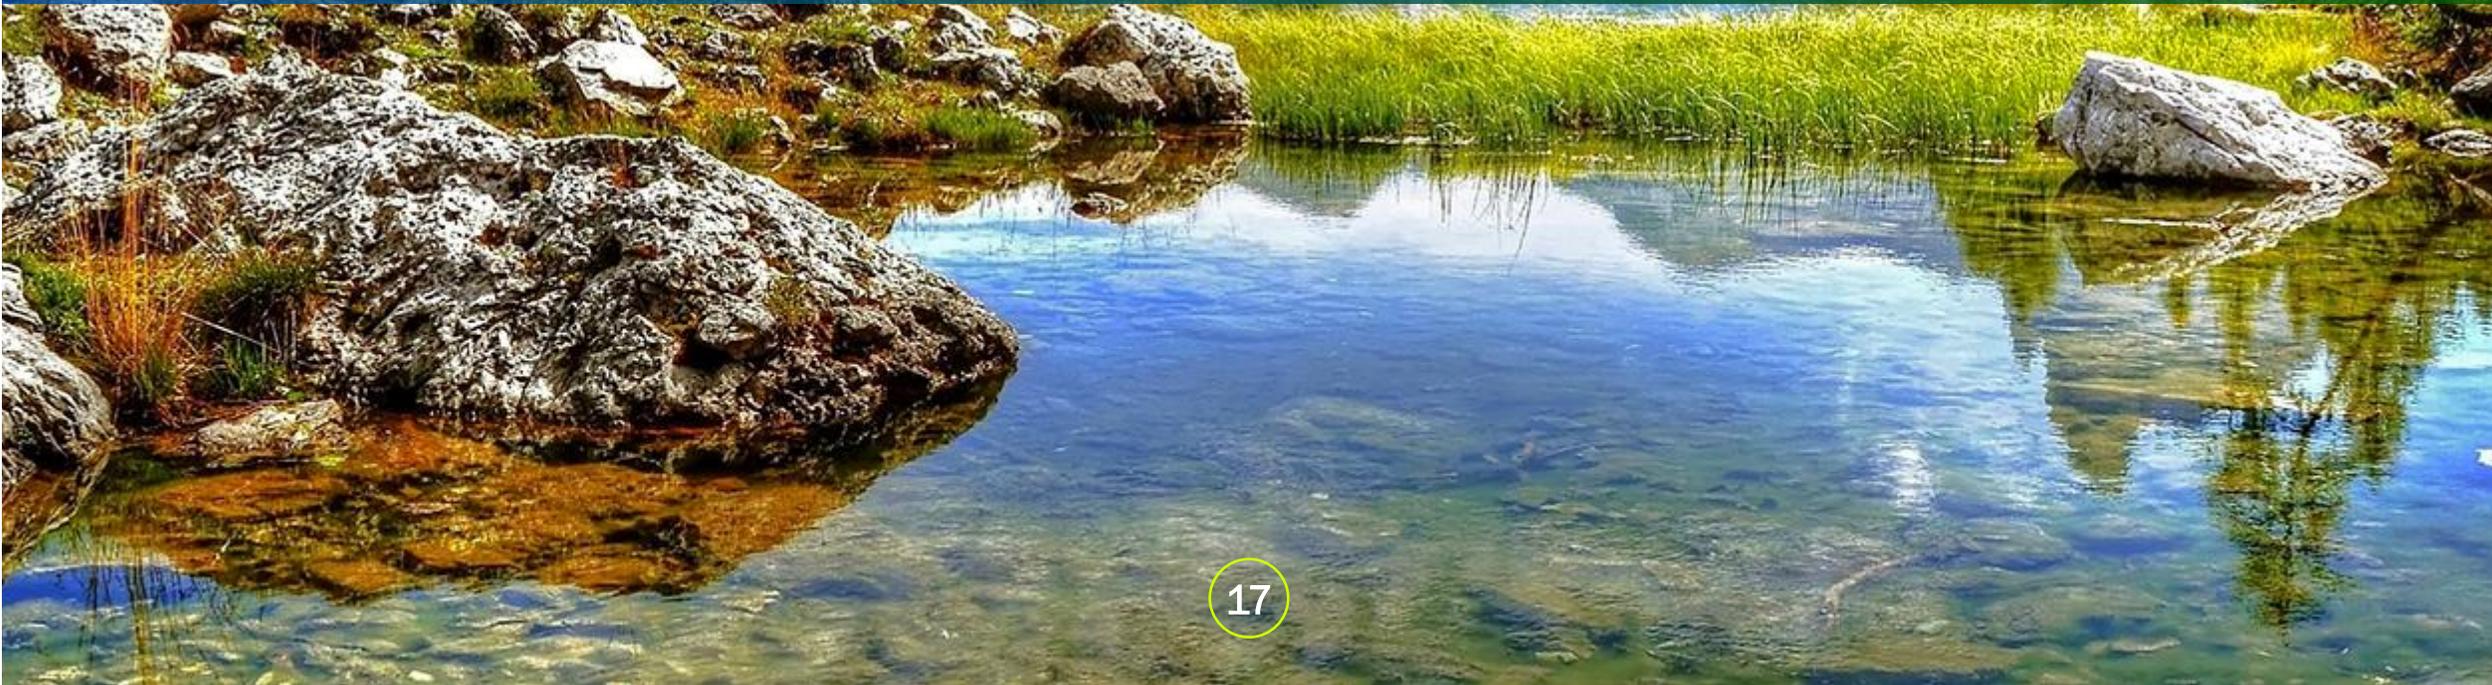

# SO if we want to find Sophia,

**WE VIBRATE WITH HER  
FREQUENCY...**

**(Sount Vibration – Time in Nature)**

“Wisdom is not stupid: she knows that any attempt to impose form upon her movements is a doomed undertaking...so she turns the kaleidoscope when we aren’t looking.”

–Caitlin Mathews

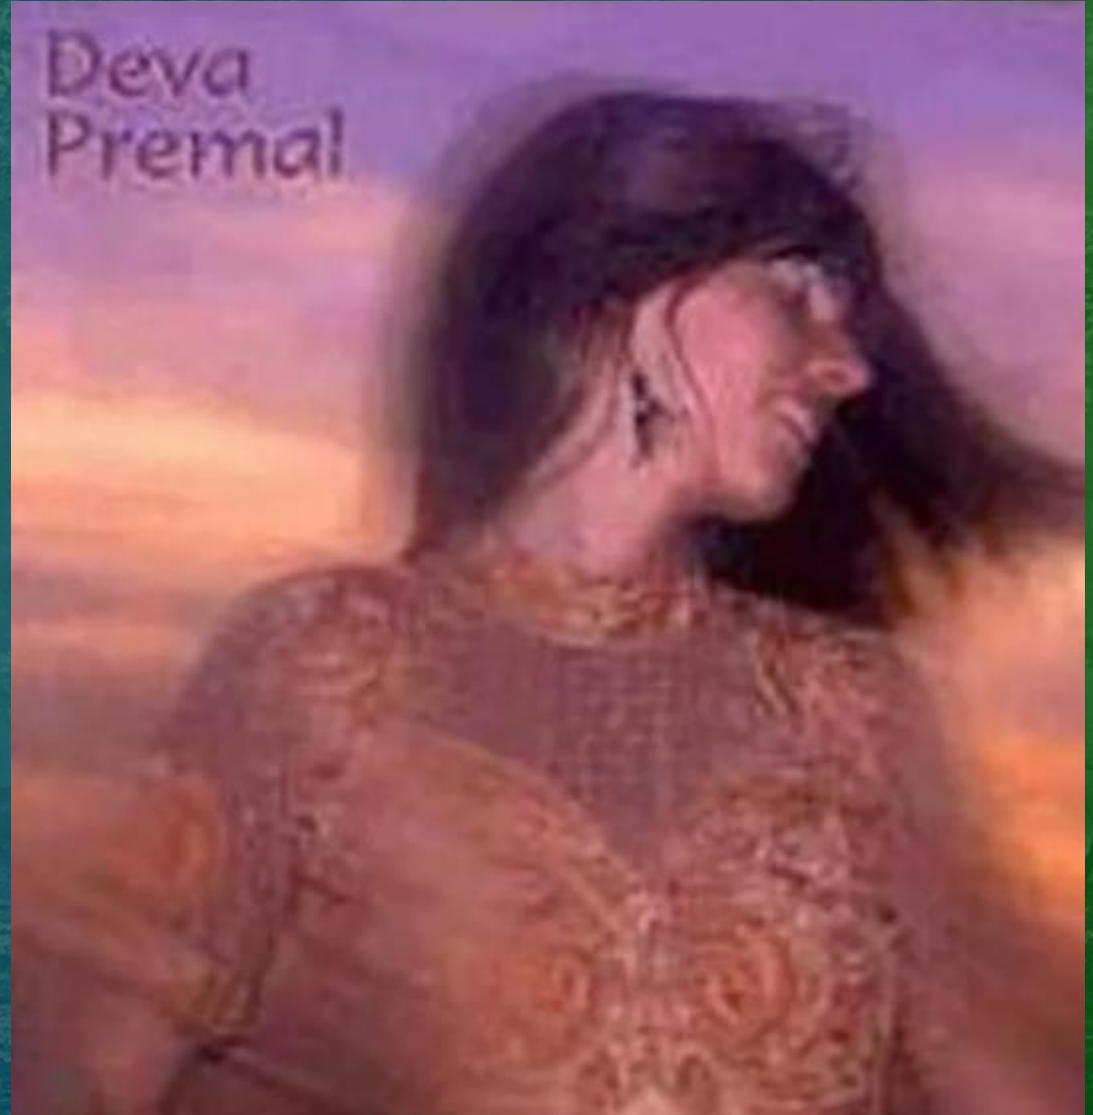

*Which leads me to another tool  
you can use to access Sophia...*

But first a bit more about my story...

**The Gayatri Mantra:**

*om bhūr bhuvah svaḥ  
tat savitur vareṇyam  
bhargo devasya dhīmahi  
dhiyo yo naḥ pracodayāt*  
– R̥gveda 03.062

"We meditate on the glory of that Being who has  
produced this universe; may She enlighten our  
minds."

# Dance and Integrate

---

*We are the stardust of a thousand worlds, swirling into the dance of life,  
Filed with dark light that has fallen into our bones and marrow,  
Igniting the heart, the organ of fire and love that shines ever brilliant.*
