Check-in ~

*Have you felt the Divine
Feminine Moving in you?*

So let's remember what we know...

- Everything we see originates from primordial substance through the door of Sacred Geometry.
- ENERGY – SHAPE - FUNCTION
- Everything that we see has literal **SOURCE LIGHT (PRANA)** in it.
- This SOURCE LIGHT has *specific frequency attributes* that are measurable.
- It is always found in the **CENTER** of every object.
- It can be grown & cultivated with attention.

For Example...

This...

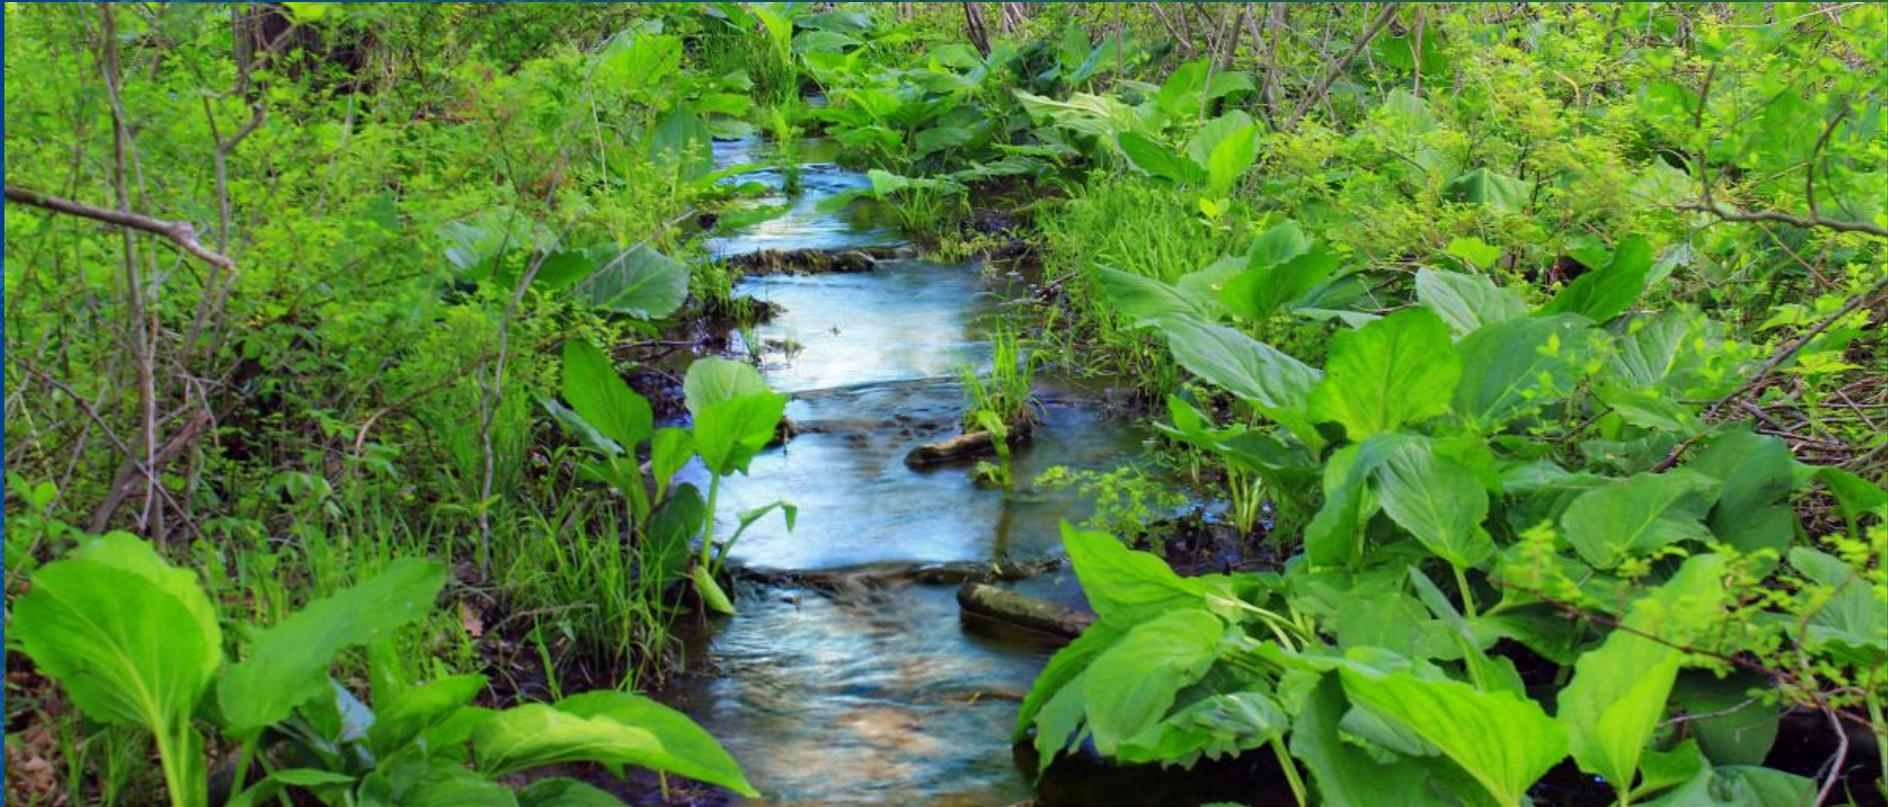

to this...

WHY DO WE ALWAYS REFER TO NATURE WHEN WE THINK OF ALCHEMY AND SACRED GEOMETRY?

WHAT IS THE CONNECTING THREAD?

Nature is the closest physical expression we have to the origination point – the purest example. So, as we move forward expect to be reminded of this...Remember:

Void
Frequency/Light/Thought

Shape – which defines the pattern in which the energy is moving and will determine the form it will take.

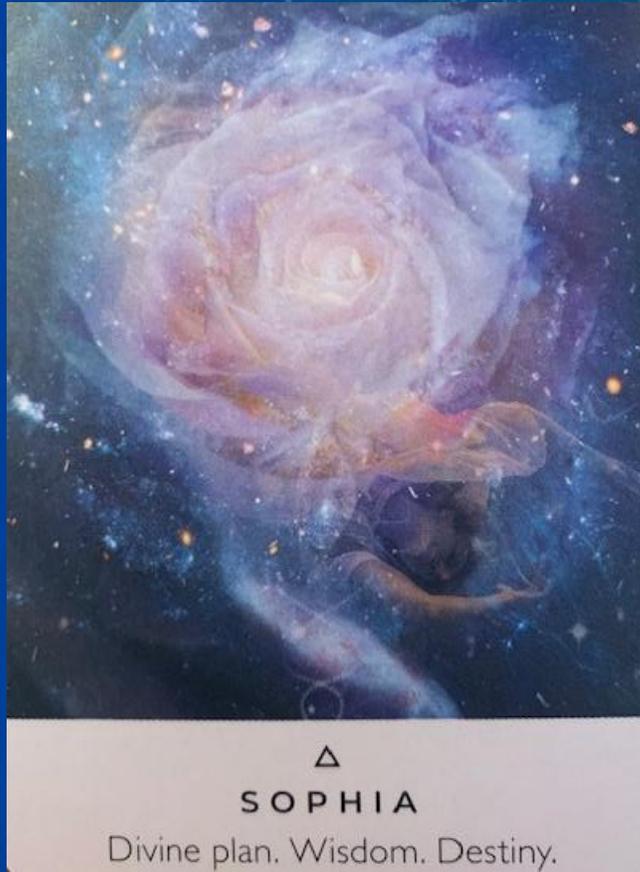

We have been programmed for materialism – not co-creation.

Co-creation requires a mutual exchange of information.

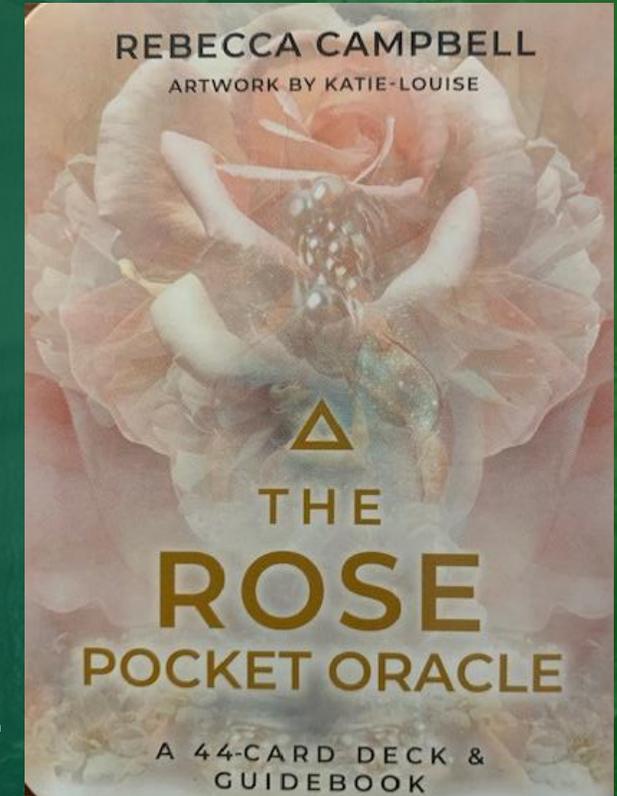

The closest voice we have is Nature.

And as we move forward we are going to find that Her voice is not so different than that of our Soul...

“Sophia is thought to have been a force present at the time of creation and is often presented as a woman...The galaxy overlapping the spiral of the rose on this card is a mystical representation of Sophia as holder of the divine plan. The intelligence that tells the rose when to open and the planet how to spin also exists within you... Sophia embraces the cosmos. She holds the blueprint of creation. No person, place or thing is left out...Rest in the intelligence that exists within your cells...Trust the blueprint within.”

Ancient People Knew This...

They knew that this amazing life force energy was all around us and in the Earth Herself.

They knew how to track animals to find it.

Once they did, they would build things around it to both grow it and emit it.

They would also direct it through the village or town via the road system.

Chartres Cathedral, France

Stone Henge in Great Britain

Here they put stones on top of every place that it emitted.

Why? Because these specific stones contain a high concentration of Clear Quartz. Clear Quartz magnifies any frequency it is near.

Also, since they are in a circle, what do we know about the center?

So, what does that tell you about every time we call in Sacred Space?

What if we call it in, in the same spot every time?

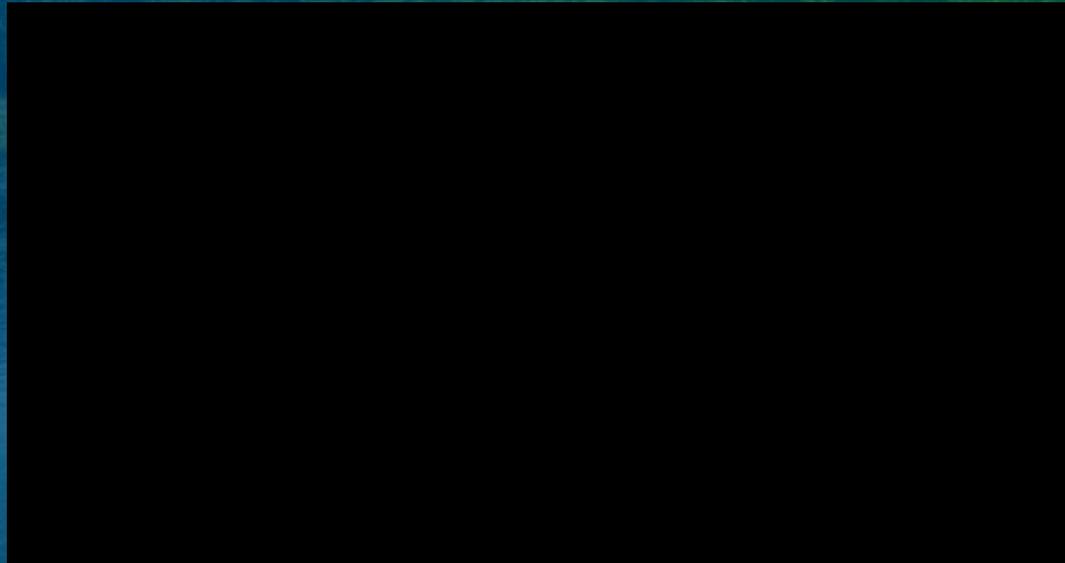

What does it tell you about inviting in the elements?

Ancient Peoples Knew this too!

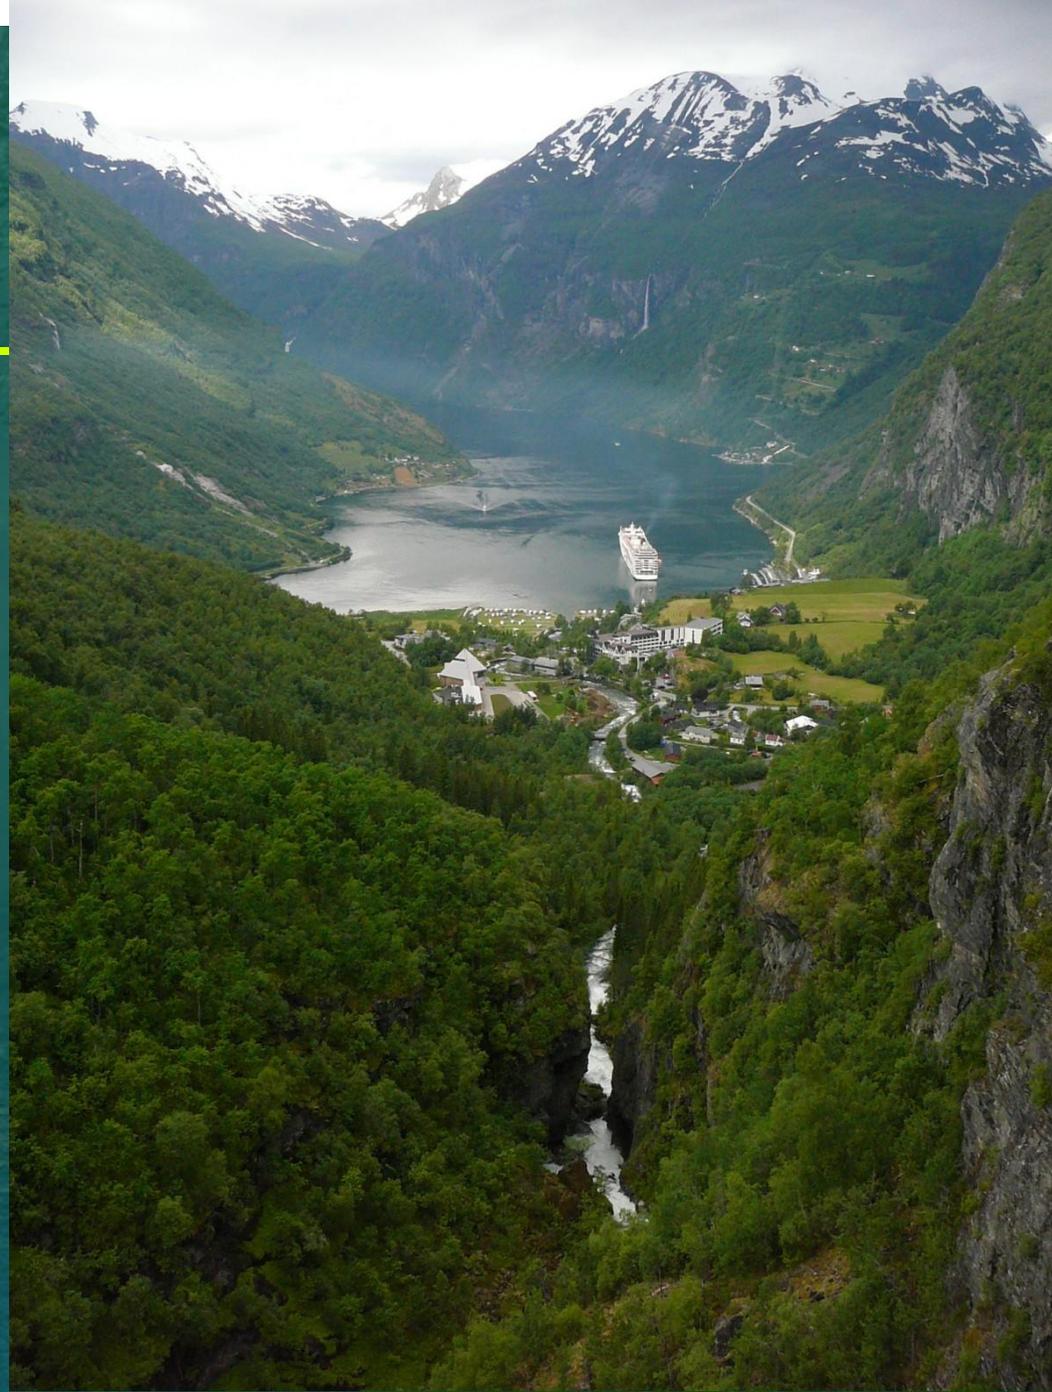

For Ancient people Sound was more important than sight. Sound, Breath, and Feeling – **SENSING** was a doorway that opened them to another world, another atmosphere.

Abwun d'bashmaya – this word in Aramaic IS the calling in of Sacred Space with Sound Vibration. So rather than doing it with our mind, we do it with our frequency!

This connection must again become Primary!

“This Fountain of Virtue is the continual on-rushing of the gifts of the higher hierarchies that create all of the wise interactions of the beings in nature. Everywhere we look in nature, wherever we *unveil Isis*, we find behind *the beauty of nature, the miraculous power of creation imbued with endless wisdom in its design.*”

This is our doorway in...

SO if we want to find Sophia,

**WE VIBRATE WITH HER
FREQUENCY...**

“Wisdom is not stupid: she knows that any attempt to impose form upon her movements is a doomed undertaking...so she turns the kaleidoscope when we aren’t looking.”

*“We all spring from
Her night of silent
Unknowing where
Dreams come not—from
That blessed nothingness
That holds all and weaves
Together the loose ends of
Time and space.”*
