The Priestess Process...

Is a process!

You have been moving through that process of becoming for 35 weeks. You are a different person.

The Importance of Integration...

As a society, we have learned to consume and store. We move quickly. We barely have time to process one thing before we are on to the next.

Throughout this process, I hope you have begun to learn that this way of living may not always be the most appropriate.

And since you are going to be ushering in the NEW, we want to begin to learn to lead by example.

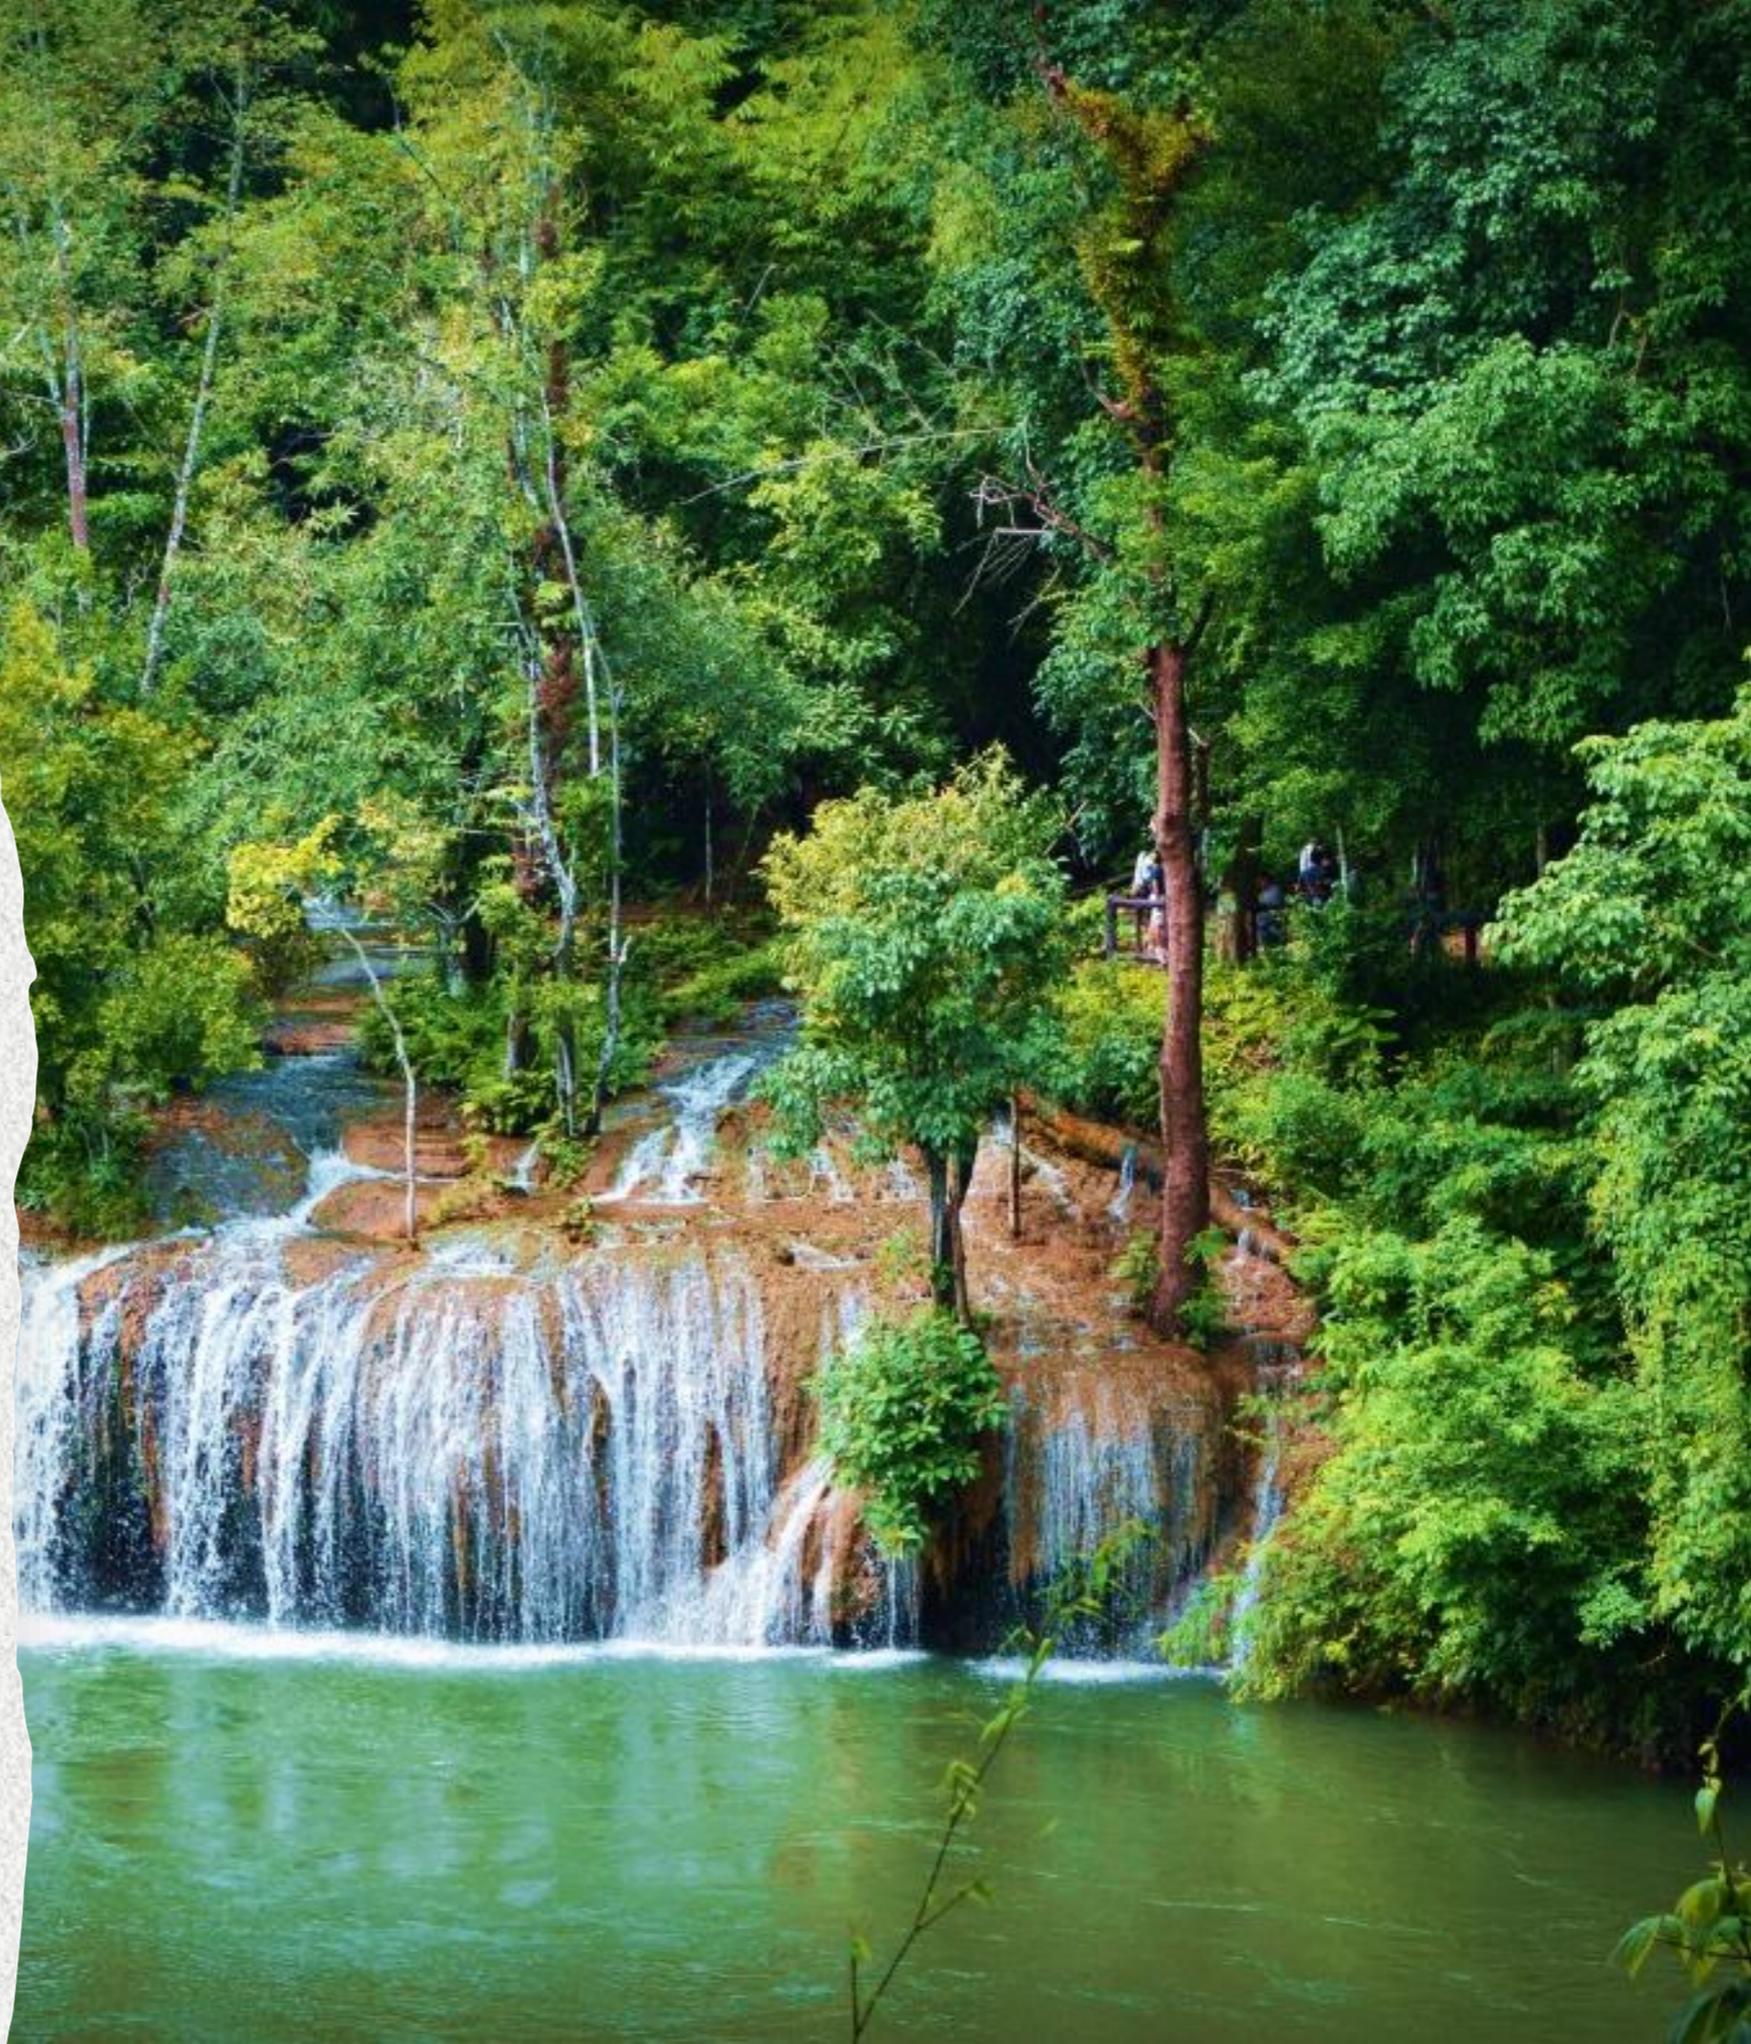

So....

Journal with your Inner Source Light Priestess..

Meditation...

- Think of who you were when you began...
- What did you expect from this time?
- What has the journey been like for you up to this point?
- Can you begin to feel-in to what you are becoming?

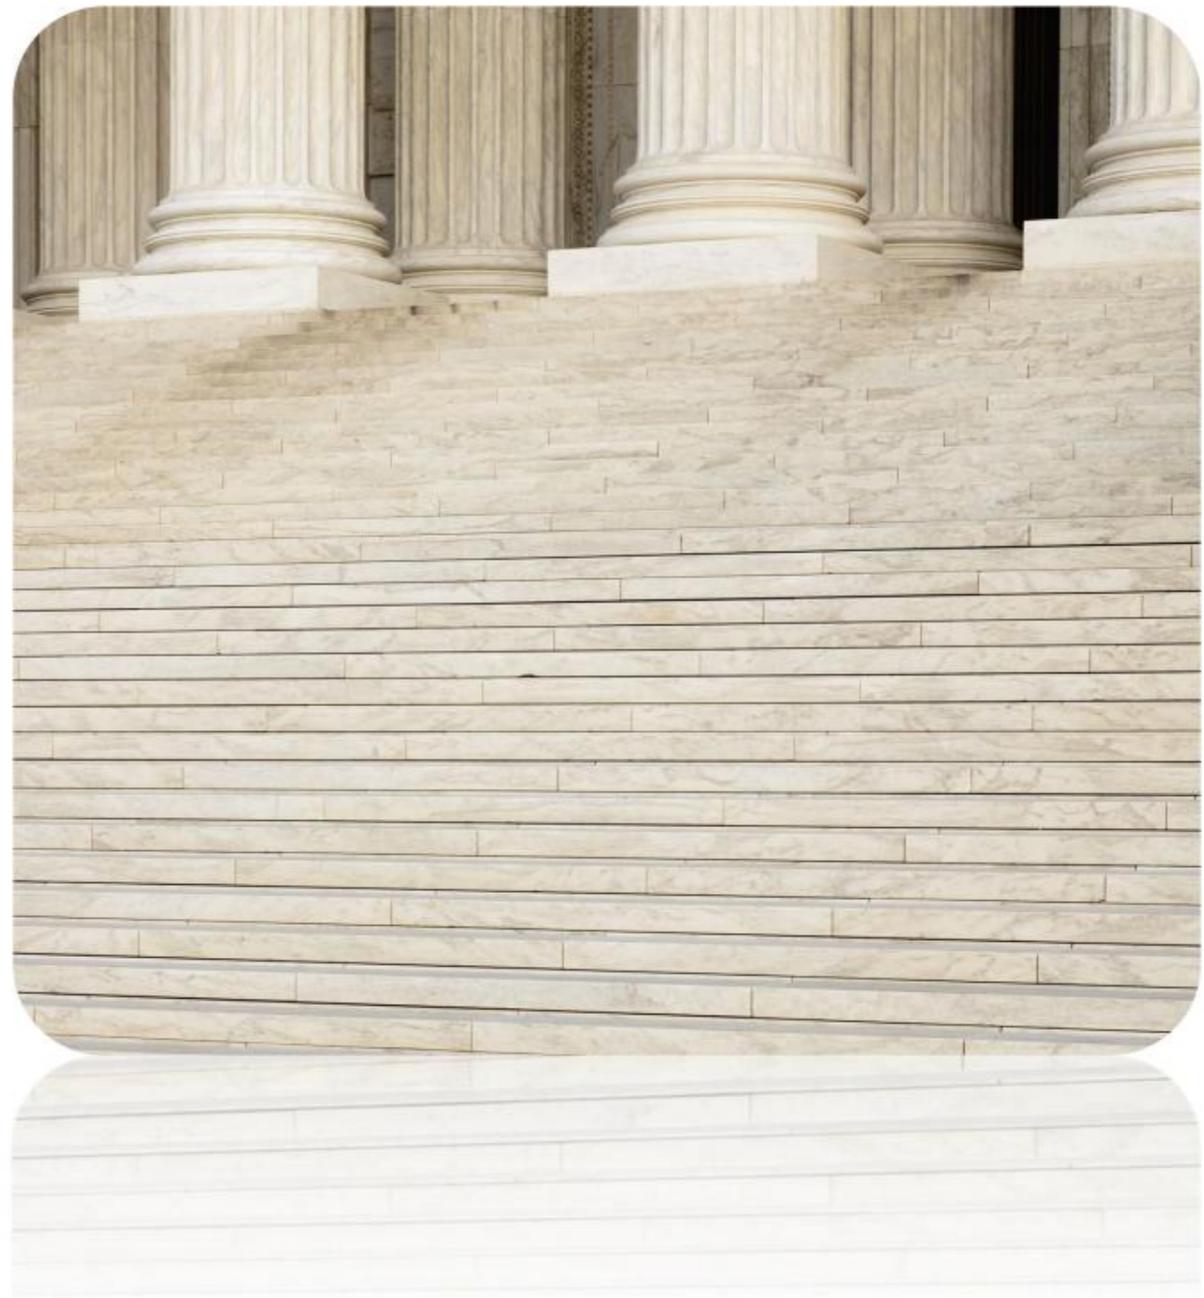

We began our journey by connecting with and learning about Divine Mother...and your own deep holy wisdom of Her...
What have you learned of Her and Her connection to Your own soul...Let your Inner Priestess speak...

WHO IS DIVINE SOPHIA?

In the *Pistis Sophia*, Sophia is ***the first feminine principle***, a goddess. – **THE GODDESS!** Sophia is Holy Wisdom. **She is DIVINE MOTHER.**

She is the **Unseen** Energy that weaves in and out of everything. **She moves silently.** She is the **In-Between** – the “**substance that thinks.**” She is the **bond between us all.** She is the essence that breaths us. She creates energetic exchange ...between the elements...between us. She is the **Love** that you feel when you look into your child’s eyes, or at a sunset, or when you are held by your lover. She is the **tantric connection** between and through everything.

In truth, SHE IS HOLY WISDOM. She existed before anything physical existed, and SHE birthed it all!

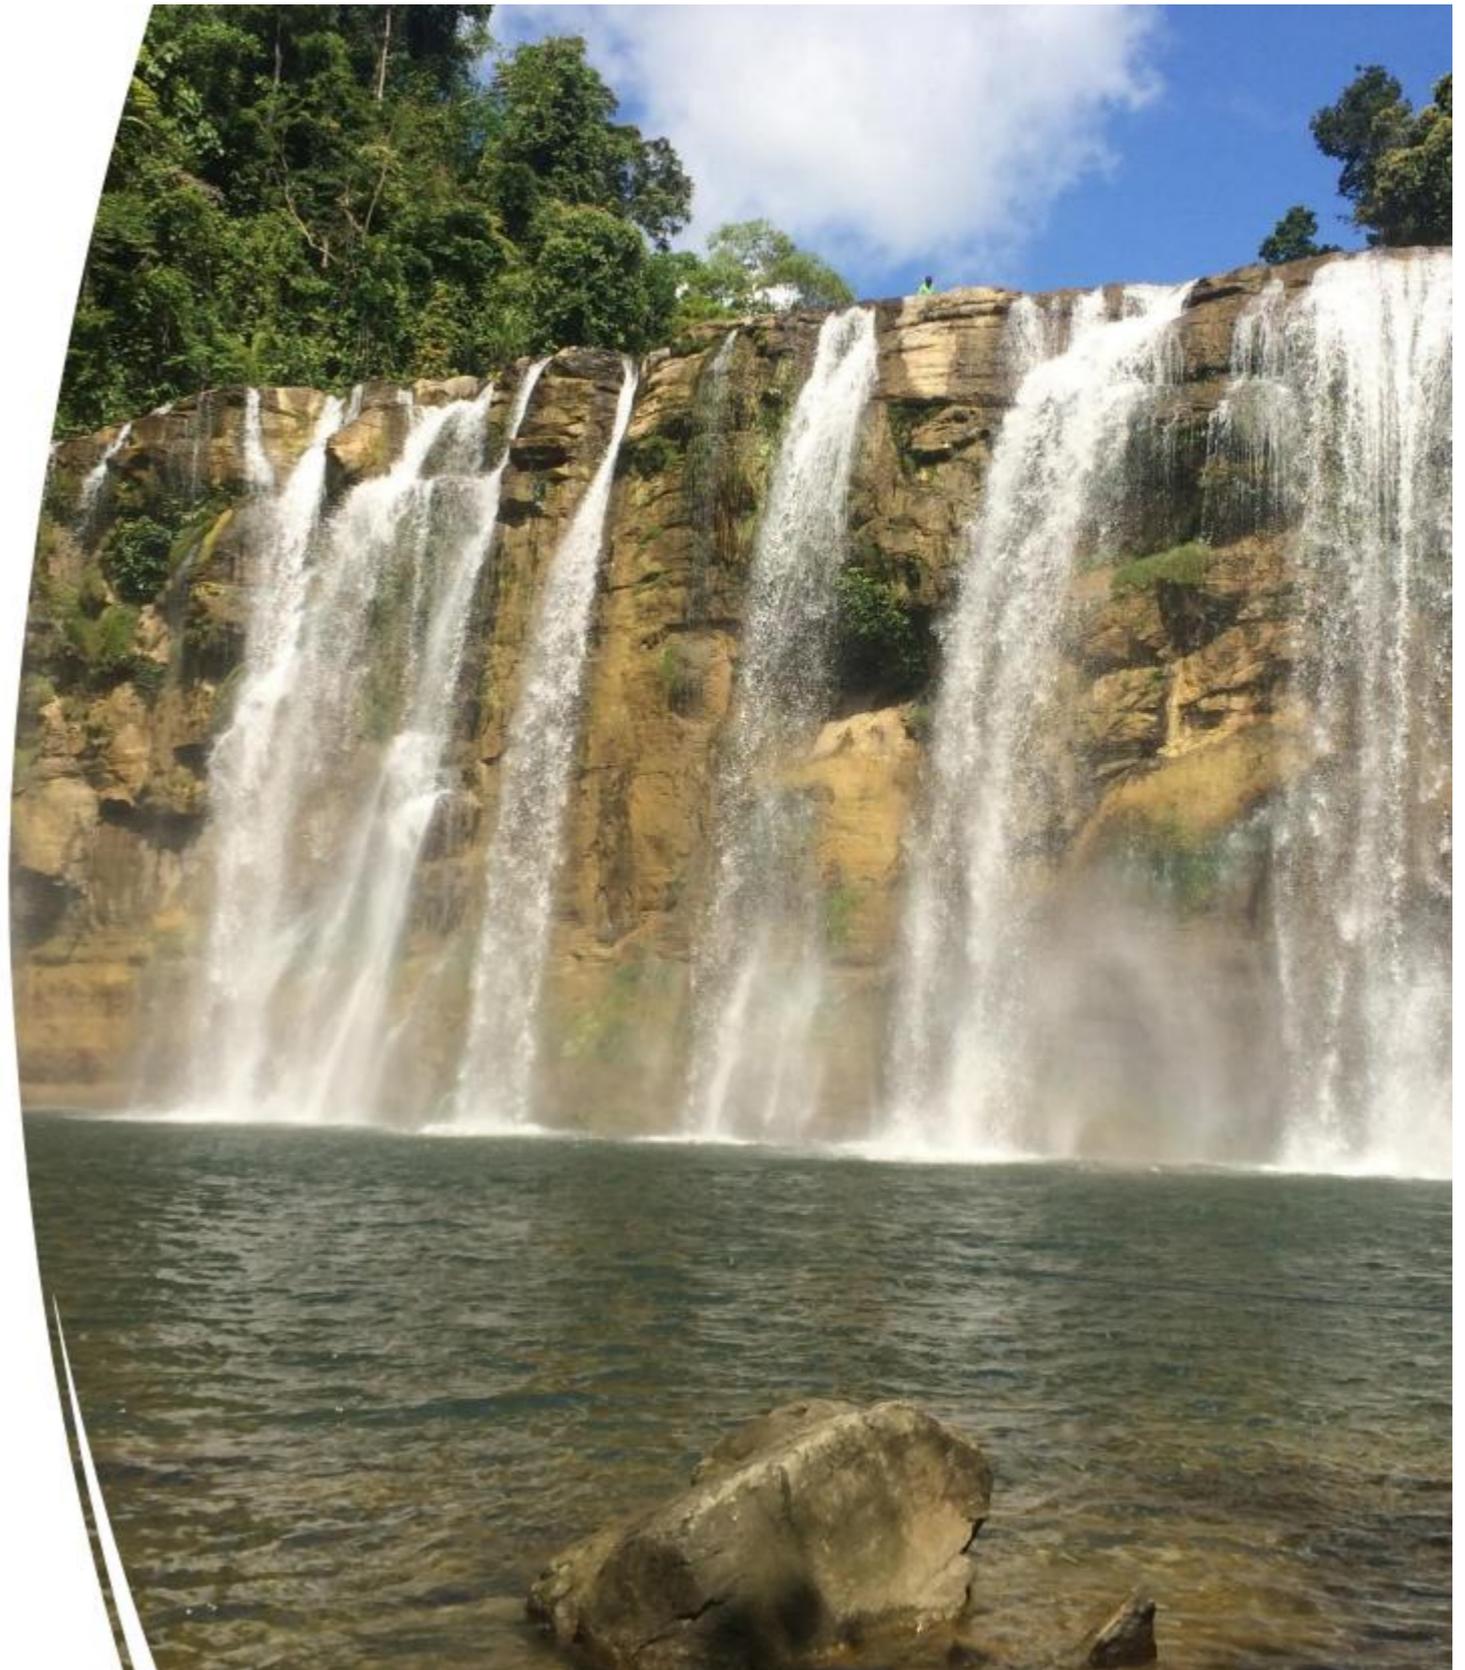

Then we learned from the elements because they are our closest connection to the Divine... What have you learned from them. Let your Inner Priestess speak...

The Elements: Earth, Air, Water, Fire, and Spirit or Ether are the messengers from Original Source: SOPHIA!

They were born billions of years ago out of the primeval life force. They understand creation and destruction. They have had time to learn how to come into alignment with their neighbors and to help their children—the planets—and their great-grandchildren—life-forms upon Planet Earth. They can teach us lessons of right relationship with one another – all sentient beings.

Most modern humans have forgotten our essential connection to nature to our peril. We have grown strong and powerful and are capable of affecting, through our collective actions, the natural balance of our planet. In our arrogance and greed, we have taken our species and many others to the brink of destruction.

This is why it is imperative for us, as Priestesses, to develop a relationship with our Great Grandparents, the elements. We are the leaders that will lead the human race to begin to take responsibility for our actions.
