DIVINE SOPHIA ~ FEMININE WISDOM

In the *Pistis Sophia*, Sophia is the first feminine principle, a goddess. Pistis Sophia (Faith-Wisdom, Sophia the Mother) falls from grace to Earth when she follows the Light she thinks will bring her to the **highest expression of the Light**. But she is set upon by material powers who deprive her of her own light. She falls into the physical realm of darkness – low and slower vibrational frequency. Because if you go back this far, there is no physical existence yet as we know it. And in this PATRIARCHAL version of the story, she is She is redeemed by her consort, Christ. Mary Magdalene is identified in the scripture as Sophia the daughter, the bride of the bridegroom.

In our past circles we have asked the blessing of the Magdalene over our endeavors, and indeed her life mirrors our own experiences in so many ways. REMEMBER all these Archetypes can assist us with their wisdom.

But I would like to challenge us at the beginning of this new Epoch to create a new story...

One our Soul writes with the over-lighting assistance from Divine Feminine Wisdom in whatever form we choose to experience her...

A Journey of Discovery

Prayer to the Cosmic Mother

Oh, Great Mother, Divine Feminine, birther of the cosmos, lover unto Spirit, Creatrix of all matter and Queen of all worlds within worlds and those without,
We call to you this hour. We are your children, hear our call. We are the daughters and sons of your divine union, the flesh of your passion for life.

You, who lay with Spirit, our Father, in the Beginning of Time, and brought us forth From the blessed union of Spirit and Matter, we are your children, the sons and daughters of your flesh and your heart,
and we remember your touch,
and the fragrance of your essence and we long for you.

Come into our hearts and gift us the remembering. Come into our minds and open our genius. Enlighten us with your presence. Draw back the veils that we might see, and harken the doors to open, that beauty and ecstasy may live in our homes and hearts more fully.

This is our hour of greatest need. We call you through fire and water, through earth and wind, through all that bears your name. We call all your lineages and all your names. Come to us. Come to us.

So Be it.
